

IBICS

Irish Biological Inorganic Chemistry Society

The Irish Biological Inorganic Chemistry Society (IBICS) will host its 5th Symposium (IBICS-5) virtually on Friday, 26th November, 2021

The symposium will include **3 plenary lectures** from international experts:

Professor Bill Keevil

*Professor of Environmental Healthcare
University of Southampton, UK*

**The Antimicrobial Mechanisms of Copper Materials and
Relevance to Healthcare in this Age of Coronavirus**

Professor Edith (Phoebe) Glazer

*Associate Professor of Biological Chemistry
and John C. Hubbard Professor
University of Kentucky, USA*

**Using Light and Ru(II) Polypyridyl Complexes for Targeting Cytochrome P450 1B1
to Restore Chemotherapeutic Efficacy**

Professor Angela Casini

*Professor of Medicinal and Bioinorganic Chemistry
and Liesel Beckmann Distinguished Professor
Technical University of Munich, Germany*

**Supramolecular Coordination Complexes for Biomedical Applications:
A New Generation of Targeted Drug Delivery Systems and Theranostic Agents**

The symposium will also include the presentation of the **IBICS Postgraduate Award 2021**

DETAILS

Platform: ZOOM (link will be sent by email in advance of date): Time: 11.00 – 17.00

IBICS AGM: To immediately follow the symposium 17.30

Registration deadline: Wednesday, 24th November 2021

Registration Fee: Free for IBICS members (Please register via link provided)

Abstract submission deadline: Thursday, 18th November, 2021

(Abstracts to be emailed to: secretary@ibics.ie)

Further details on our website: <https://ibics.ie/> and via Twitter @IbicsIreland

The Society's mission is to develop, foster and promote a strong national network of scientists collaborating in research areas such as biology, chemistry, physics and medicine with an interest in biological inorganic chemistry.
