

IBICS

Irish Biological Inorganic Chemistry Society
Advancing Inorganic Chemistry in Life Sciences and Health

The Irish Biological Inorganic Chemistry Society will host its 8th Symposium (IBICS-8) in University College Cork, on **Friday, 6th December, 2024**

The symposium will include 2 plenary lectures from international experts:

Dr. Jennifer S. Cavet

School of Biologicals Sciences, University of Manchester,
Manchester, United Kingdom

Metals at the host-pathogen interface: bacterial strategies for overcoming metal stress during infections

Prof. Tatjana N. Parac-Vogt

Department of Chemistry, KU Leuven, Leuven,
Belgium

Artificial enzymes based on metal oxo-clusters: from discrete species to extended materials

The symposium will include the presentation of the **IBICS Postgraduate Gold Medal 2024**
Nominations are open: <https://ibics.ie/ibics-awards/>

DETAILS

IBICS AGM: During lunchtime of the symposium

Registration: <https://forms.office.com/e/7JZ66q6Jwq>
